

Cuong Vu

FULL STACK DEVELOPER

Helsinki, Finland (based in Helsinki, but able to relocate everywhere within Finland or Europe)

Cuong is an up-and-coming Full Stack Developer who has proven his abilities in action. Cuong has already worked in an e-commerce company as well as building websites for customers. In addition to his skill set in web development, Cuong is a recent graduate with a B.B.A. degree in International Business. He has pursuits in marketing, leadership, and social entrepreneurship. This rare blend of backgrounds enables Cuong to understand the business objectives and use cases behind his work as a developer.

Experience

Mehtaheino | Espoo, Finland | July 2022 - October 2022

RECENT PROJECTS

Youtube clone

React.js, Cloudinary, Redux, Node.js, Express.js, MongoDB

Youtube clone website with authentication, upload content, dark/light mode, comment, chat, like/dislike function. Media storage by Cloudinary, and database using mongoDB

E-commerce Store

React.js, Firebase, Redux, Node.js, Express.js, MongoDB, stripe

Ecommerce website which utilizes Stripe for payment service, The main skeleton of state management is Redux

Job Search Application

React.js, JWT, MongoDB, Redux, Heroku, Node.js, Express.js

Job search website with CRUD, authentication, authorization system, and analysis dashboard. This project is a good case to prove my skills with MERN stack. I have followed a good old traditional design convention of MERN to make this website livable.

Booking Application

React.js, JWT, MongoDB, Redux, Heroku, Node.js, Express.js

Booking website with authentication, which allow user to book a room. This project is inspired by Airbnb

Social App

React.js, Firebase, Redux, Node.js, Express.js, MongoDB, stripe

This social app are created by React and Node. Media storage by Firebase, and Database using MongoDB. This project is inspired from Facebook

EDUCATION

B.B.A. IN INTERNATIONAL BUSINESS
